# HME SIGNATURE SERIES BUMBLEBEE CUSHION

ENHANCING LITTLE LIVES

## HME Bumblebee Pediatric Cushion

### CREATED FOR STABILITY & COMFORT

The HME Signature Series Bumblebee Cushion is designed to promote a stable seating posture and naturally align the lower limbs. The lateral adductors and the medial thigh abductor support the patient's lower body and the anti-thrust wedge prevents the user from slipping forward.

- Framed with a sturdy layer of plastazote to ensure stability, the Bumblebee Cushion is made of soft memory foam and urethane that provide exceptional support and comfort.
- The lateral pelvic and adductor supports are reinforced with a rigid structure for effective postural control of the pelvis and the lower limbs.
- The cushion also features Rear Notching available for growth
- Designed and manufactured in Canada exclusively for HME Home Health
