

Safety First: On-going maintenance for tracks, motors and slings

DID YOU KNOW?

The following needs to be checked on a regular basis to ensure safety.

TRACK LOAD TESTING

Track load tests should be completed as per manufacturers recommendations, which are normally annually, by a certified technician & a written record kept on-site.

A load test will include the following:

- * Weight testing of the track
- * Checks for deflection of the track & general inspection of the track
- * Placement of a new load test verification sticker on the track

Cost: \$165.00 (first track); \$150.00 (subsequent tracks)

MOTOR CHECKS

Motor checks should be completed as per manufacturers recommendations, which are normally annually, by a certified technician & a written record kept on-site.

A motor check will inspect the following to ensure the motor is in good working order:

- * Motor & Hand Control (unit moves up/down and left/right/return to charger where applicable)
- * Emergency Stop & Strap (check for colour fading and fraying)
- * Charge Station & Battery Testing
- * Guide Roll (Shaft & Snap Rings); Drum (Gears, Shaft & Snap Rings); Limit Switch (High/Low)

Cost: \$165.00 (first unit); \$150.00 (subsequent units)

SLING INTEGRITY CHECKS

Integrity checks should be completed continuously by staff and then at a minimum, every six months a written record should be kept on-site.

The following should be checked:

- * Ensure ID label is present, intact and readable
- * No visible damage to the body of the sling or to the leg bands
- * No damage or fraying of the straps or loops

Cost: Complimentary

- * Track load testing should be completed annually by a certified technician
- * Motor testing should be completed annually by a certified technician
- * Sling integrity checks should be performed continuously by staff & a written record every six months
